Scope Sheet

Background/Intro

There is no global online cooking recipe sharing platform to chefs around the world where they can exchange their recipes on internet.

The founder and investors would like to build a site to accomplish this.

Goal

Become the leading cooking recipe sharing website in US and internationally for the following years.

Objectives

- Build a system to support an e-share platform for cook recipes.
- Make the site available in US and worldwide for the future.
- Create an easy to use, simple site.
- Create a site with quick response.

Scope

- Ability to create user/customer accounts;
- Ability to submit recipes;
- Allow the users to search, like/dislike and comment on other recipes;
- Payment method should be secure from hacking;
- Allow advertising.
- Create a personal dashboard to adjust payment methods, personal information addresses, purchase history;

Risks

- Owner has many businesses,
He might not be available to provide business requirements when needed.
He might not be able to allocate his other resources that he is using for other projects.

Constraints

- To be the lead in this field, project needs to be completed in short amount of time.
- The budget is limited by \$750,000.

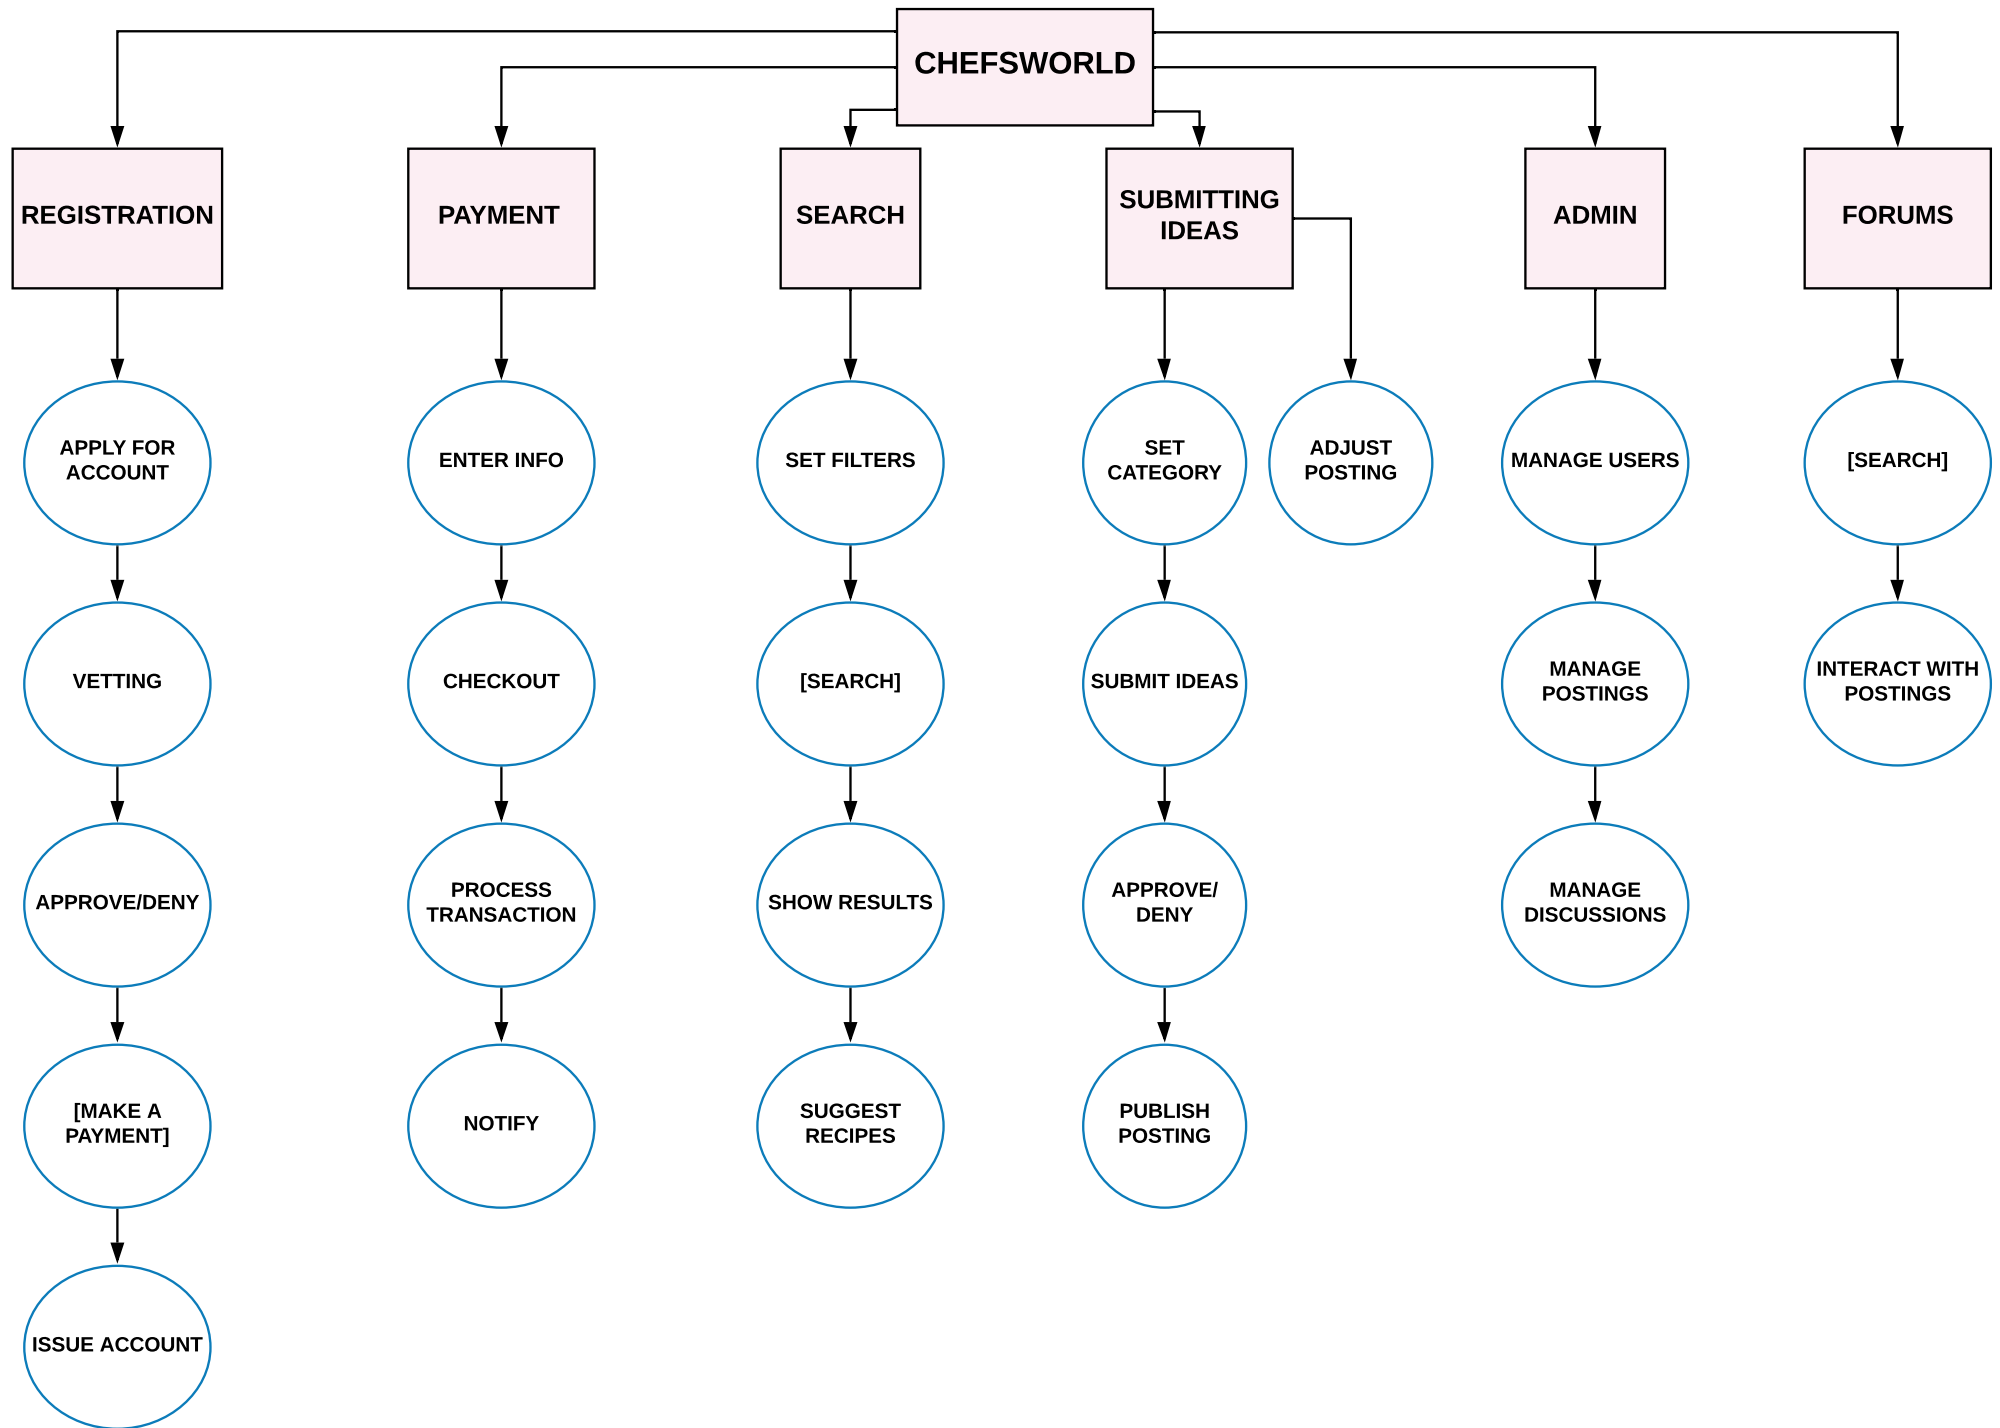

What is out of scope?

Ability to upload recipe videos.

List of actors

Founder, investors.

CHEFSWORLD DECOMPOSITION DIAGRAM

1. Functional Requirements

1.1 Registration

1.1.1 Apply for an account

1.1.1.1 The system shall require the user to enter all necessary fields

1.1.1.2 The system shall require the user to upload required documents such as resume, portfolio and cover letter.

1.1.1.3 The system shall require the user to create valid password

1.1.1.4 The system shall require to check username is unique

1.1.1.5 The system shall require user to accept terms and conditions

1.1.2 Review

1.1.2.1 The system shall require the user to verify email address

1.1.3 Approve/Deny

1.1.3.1 The system shall notify user that application has received for review process.

1.1.3.2 The system shall notify user of approval or denial

1.1.4 [Make a Payment]

1.1.5 Issue Account

1.1.5.1 The system shall create user profile

1.1.5.2 The system shall allow user to manage account settings

1.2 Payment

1.2.1 Check out

1.2.2 Enter info

1.2.2.1 The system shall require user to choose subscription plan

1.2.2.2 The system shall require that all pertinent is entered

1.2.2.3 The system shall require a valid credit card type that Chefsworld accepts

1.2.3 Review

1.2.3.1 The system shall require the customer to review details before submitting

1.2.3.2 The system shall require that the customer accepts all terms and conditions

1.2.4 Process transaction

1.2.4.1 System shall send request to validate the credit card

1.2.4.2 The system shall process the transaction after the card has been validated

1.2.5 Notify

1.2.5.1 The system shall notify the customer of a successful transaction

1.2.5.1.1 The system shall send e-bill to user

1.2.5.2 The system shall notify the customer of a failed transaction

1.2.5.2.1 The system shall allow the customer to re-enter the transaction

1.3 Search

1.3.1 Set Filters

1.3.1.1 The system shall provide filter options

1.3.2 Search

1.3.2.1 The system shall allow user to enter keywords

1.3.3 Show Results

1.3.3.1 The system shall list the search results

1.3.3.2 The system shall display details

1.3.3.3 The system shall allow user to adjust filters

1.3.3.4 The system shall allow user to sort result page

1.3.3.4.1 The system shall allow user to sort results in terms of rating

1.3.3.4.2 The system shall allow user to sort results in terms of category

1.3.3.4.3 The system shall allow user to sort results in terms of chefs

1.3.4 Show similar/popular recipes

1.3.4.1 The system shall suggest the user similar recipes based on search criteria

1.3.4.2 The system shall suggest the user popular recipes

1.4 Submitting Ideas

1.4.1 Submit Ideas

1.4.1.1 The system shall allow user to upload recipes

1.4.1.1.1 The system shall require user to enter recipe details and category

1.4.1.2 The system shall require the user to accept terms and conditions

1.4.2 Approve/Deny

1.4.2.1 The system shall require an expert to review the recipe

1.4.2.2 The system shall notify user of approval or denial

1.4.3 Post Recipe

1.4.3.1 The system shall publish recipe after approval

1.4.4 Adjust

1.4.4.1 The system shall allow user to view previous recipes

1.4.4.2 The System shall allow user to adjust/delete posting

1.4.4.3 [1.4.1.1.1]

1.5 Admin

1.5.1 Manage Users

1.5.1.1 The system shall allow admin to accept/deny user applications

1.5.1.2 The system shall allow admin to monitor user's activities

1.5.1.3 The system shall automatically suspend users if they don't match monthly posting requirements.

1.5.1.3.1 The system shall notify admin for suspended users

1.5.1.3.2 The system shall allow admin to remove suspensions

1.5.1.4 The system shall notify admin about complains about users or postings

1.5.1.4.1 They system shall allow admin to suspend/un-suspend users/posts

1.5.2 Manage Postings

1.5.2.1 The system shall allow admin to submit posting

1.5.2.2 The system shall allow admin to edit/delete posts

1.5.3 Manage Discussions

1.5.3.1 The system shall allow admin to create discussion

1.5.3.2 The system shall allow admin to edit forums if necessary

1.5.3.3 The system shall allow admin to flag inappropriate words or offensive material for removal.

1.6 Forums

1.6.1 [Search]

1.6.2 View Results

1.6.2.1 The system shall allow user to view search results

1.6.3 Interact

1.6.3.1 The system shall allow users to interact with posts and discussions

1.6.3.1.1 The system shall allow users to create discussion

1.6.3.1.2 The system shall allow users to make comments to other contents

1.6.3.1.3 The system shall allow user to like/dislike contents

2. Nonfunctional requirements

2.1 Security

2.1.1 The system shall encrypt the social security number

2.1.2 The system shall encrypt the credit card numbers

2.1.3 The system shall run under SSL

2.2 Storage

2.2.1 The system shall require enough gig of storage

2.2.2 The system shall allow additional storage to be added

2.3 Browsers

2.3.1 The system shall be compatible with Safari, Firefox, Google Chrome, Opera

2.3.2 The system shall operate on all mobile versions of Chefsworld on phones, tablets and other IOT's.

2.4 Response time

2.4.1 The system response time will be within industry standards (1-2 seconds)

Stakeholders

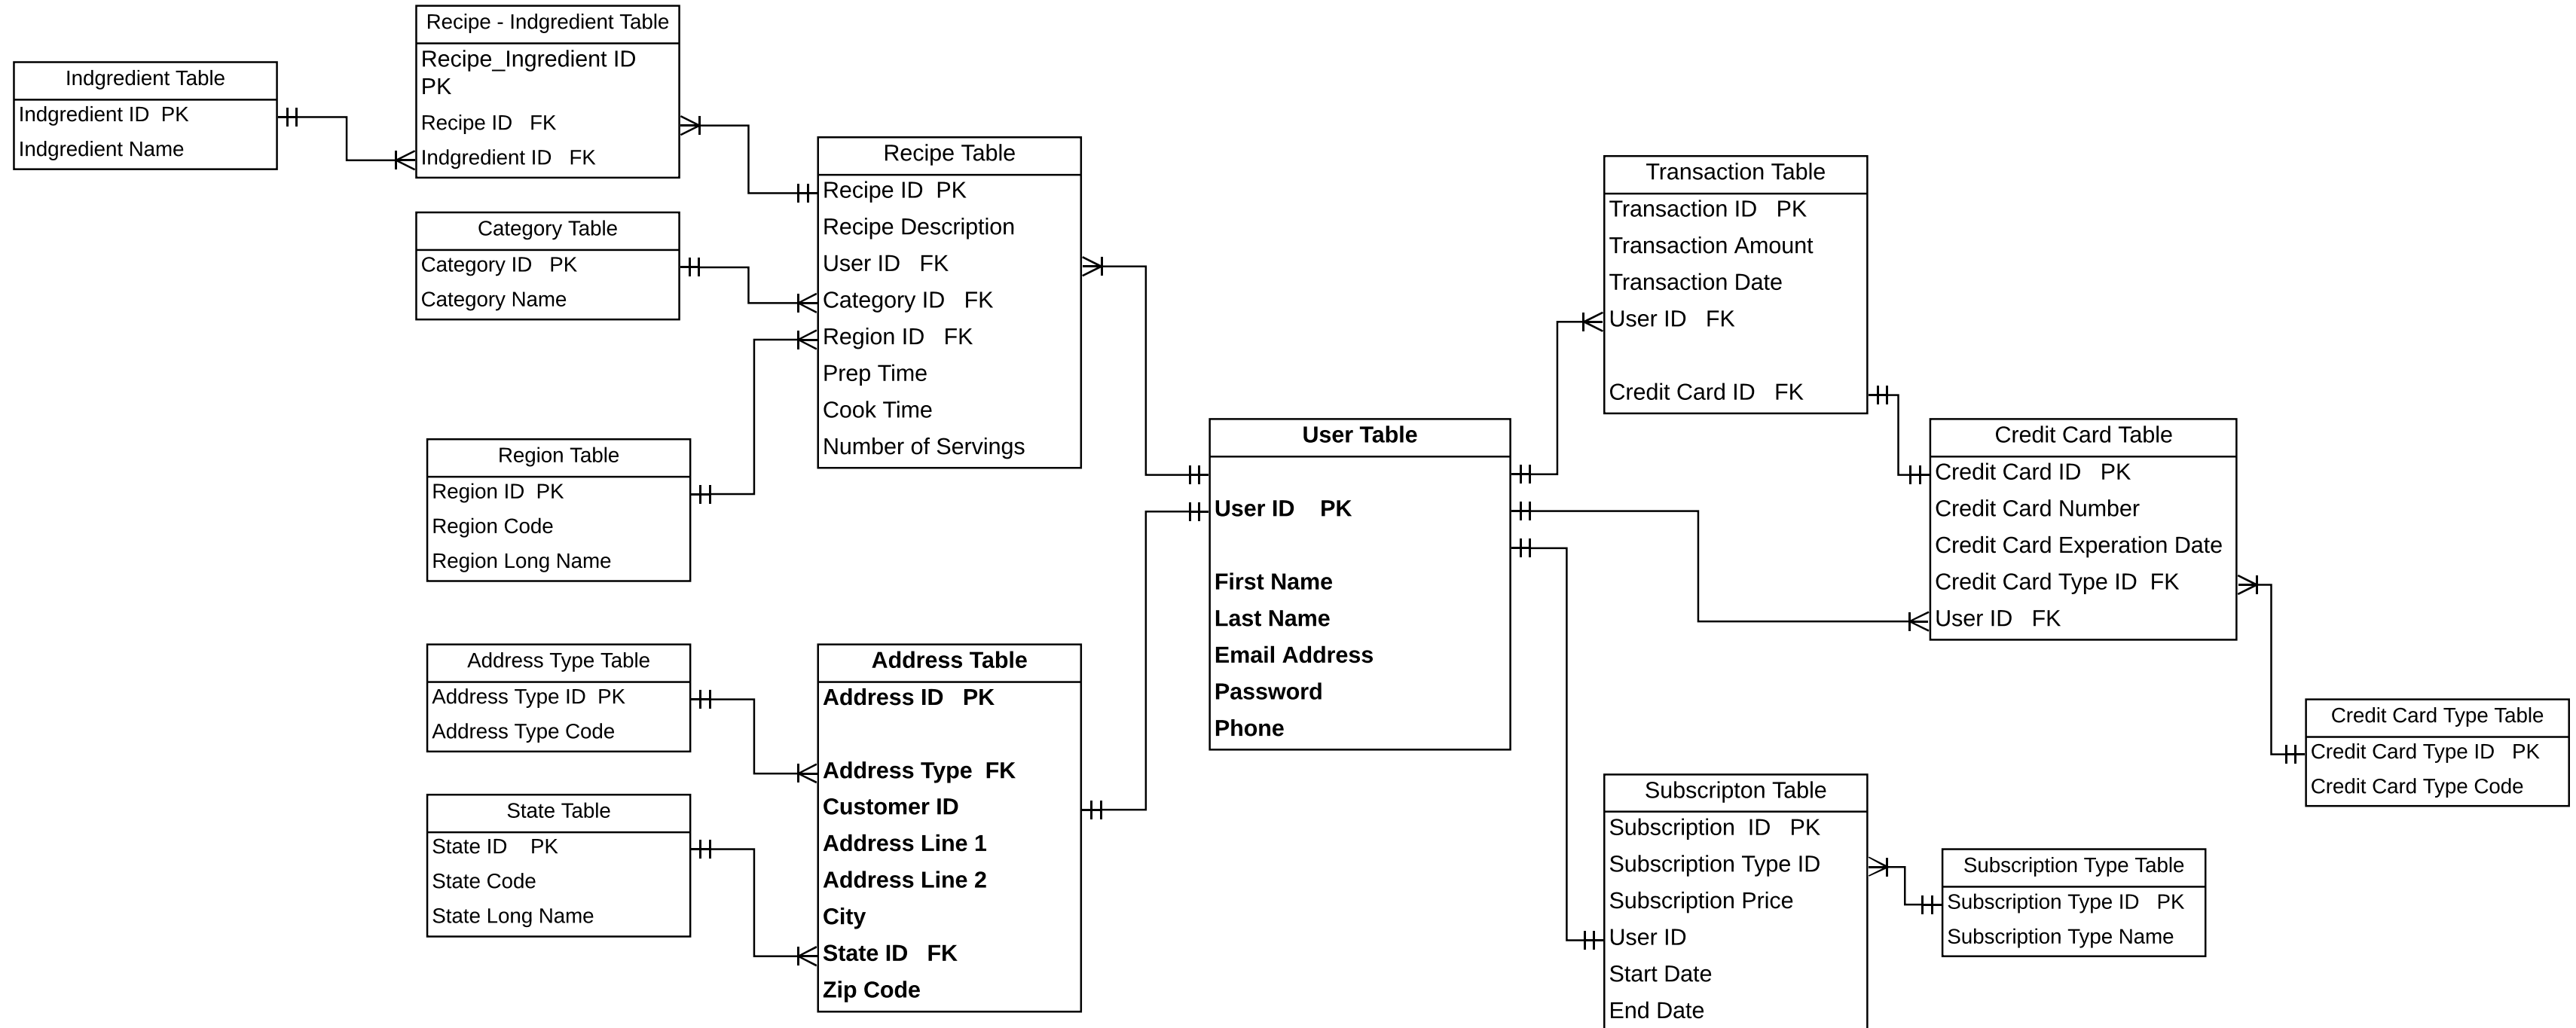

Owners, Investors, Customers, Vendors, Creditors

Approvals
